Osu,

It's a great pleasure for me to have received an invitation to the Antwerp Diamond cup 2009 in Belgium.

The tournament has become a regular event in Belgium, and competitors from all over Europe must look forward to participate in this tournament.

This year, in connection to the Antwerp Diamond cup, EKO technical & referee seminar will be held and Shihan Isao Kobayashi (The WKO referee committee Chairman) and Shihan Keiji Sampei (WKO Technical committee Chairman) will join as instructors.

I think it's a very good idea to organise these seminars, and i hope that the seminars will have as many instructors and students from all over Europe as possible.

In the WKO, we are constantly working on the standardisation of techniques and of the referee rules, and this will be a great opportunity for everybody to have a new understanding on our international rules and standard.

And of course, it is always good for all of us to get together, train and discuss Karate.

Such meetings will lead to further development of our organisation and will also strengthen the relationship among different branches throughout the world.

The three of us are looking forward to seeing you all in Belgium!

EKO President Shihan Koen Scharrenberg

Osu!

On behalf of the EKO board, i like to express my appreciation to you, for coming to watch this tournament, participating in it or contributing in any other way to the already 'brilliant' reputation of the Antwerp Diamond cup.

Special thanks to the prominent guests from Japan, that will take the time and trouble to come all the way to Antwerp, Belgium.

Midori-Shihan, kobayashi-Shihan, and Sampei-Shihan, we greatly appreciate your coming and hence the active and generous way witch you contribute to the level of Shinkyokushin Karate in Europe. For all Karateka in the world there is no greater honour and fulfilment of dreams than to be able to train and exchange ideas with legendary Karateka like you.

This is the very first time that EKO has Sponsored activities around an international event. But, since our organisation is still growing, we as board considered it of the utmost importance to present to the Karateka of its member countries the possibility to be instructed in kata, kihon and the karate techniques plus also refereeing, by the worlds foremost experts from Japan and Europe.

Thus also fine-tuning the abilities and skills of all participants in the seminars and raising the level of (shin)Kyokushin world-wide.

The basic of our Karate lies in Japan, with our great founder Sosai Masutatsu Oyama.

The essence of (shin)Kyokushin Karate, is to show respect. To our fellow karateka, our origins and the people around us. Shinkyokushin karate has enriched the life of millions around the world, all because of the ability to follow the footsteps and be inspired by one man.

Therefore, i would – once again – like to honour Sosai Masutatsu Oyama.

We wish all participants for the seminar and fighters all the best and hope they will find the opportunity to show their best efforts in the Shinkyokushin way.

Special thanks go to the organising committee, Sensei Luc Vandecraen, Sensei Koen Spitaels and their team.

And to the beautiful city of Antwerp and it's active people, who are so enthusiastic and co-operative.

We wish you all the best, in the spirit of Osu!
